

Text-graph task | Id2-10014-graph-removal-2

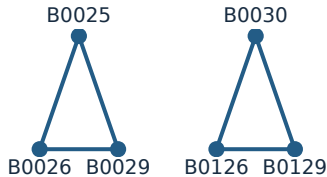

Delete B0024 and its incident edges from this local graph. How many connected components remain? Do not infer physical extractability.

Observation A after deletion

GT: 1 connected component

Observation B after deletion

GT: 2 connected components

Matched on both sides: 6 surviving nodes, 6 edges, degree multiset [2, 2, 2, 2, 2, 2], no isolates.
